

WHICH GARMENT STEAMING METHOD IS BEST? FRONT-TO-BACK

TOP VIEW

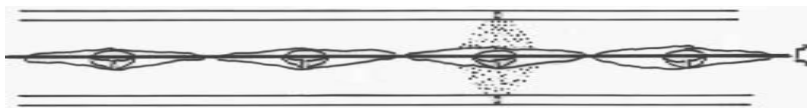

Front-to-back hanging leaves the garment's largest surfaces farthest from the steam jets, preventing optimum steam distribution.

...OR...

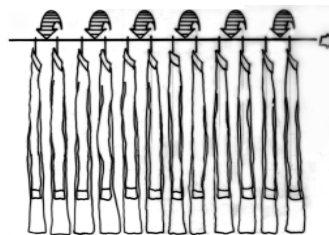

SHOULDER-TO-SHOULDER

TOP VIEW

Shoulder-to-Shoulder hanging brings the garment's largest surfaces much closer to the steam jets allowing for maximum wrinkle removal.

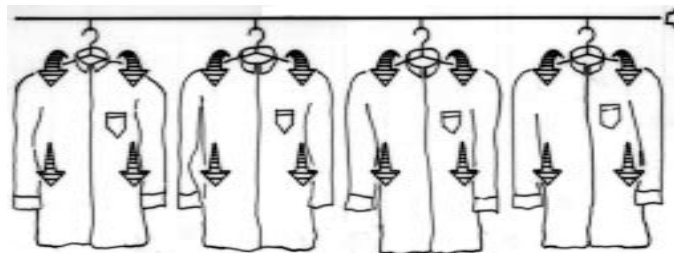

WHICH GARMENT DRYING METHOD IS BEST? FRONT-TO-BACK

The reduced clearance between front-to-back hung garments inhibits the flow of air between garments.

...OR...

SHOULDER-TO-SHOULDER

Shoulder-to-shoulder hanging allows greater high velocity air flow over the garment's surface which promotes fast, thorough wrinkle removal.

FOR THESE REASONS, LIND INDUSTRIES USES SHOULDER-TO-SHOULDER HANGING IN THEIR "VIBRA-STEAMER" PRODUCT LINE.
